How to excel at case learning

Are your students familiar with the case method? Do they know how to get the most from cases? Are they sceptical or lacking confidence?

Our Student Sessions will introduce your students to the excitement and exhilaration of case learning, giving them key insights into the case method and a solid foundation on which to build during the rest of their course. We'll come to you! You choose the venue and date of your Student Session – we cover most locations worldwide.

Transforming the case method classroom

Learning with cases is a new and challenging experience for many learners. Our experienced case method tutors will ensure your students:

- understand how to approach a case
- know how to identify and analyse key issues
